Position: Junior QlikView Developer // Full time

Location: Putney

Job description

Overview

- Excellent graduate opportunity! Context Software Development team is looking for an enthusiastic and dedicated individual in the role of Junior Qlikview Developer.
- Responsibilities include working closely with a team of developers, supporting, maintaining and developing Business Intelligence solutions.

Main tasks and accountabilities

- Assist team members in maintaining and enhancing ongoing projects
- Adhere to team standards for processes and documentation
- Troubleshoot and conduct thorough analysis and diagnosis of problems
- After a period of internal training, build QlikView applications end to end, including ETL, data modeling and building reporting dashboards

Experience/Knowledge/Qualification required:

- Basic understanding of databases, including data modelling, relationships and SQL querying
- Knowledge of UI best practices
- Knowledge of QlikView desirable but not essential
- Knowledge of Web Services, AJAX, ASP.NET, HTML, CSS and JavaScript a plus
- Good problem solving skills with attention to detail
- "Think outside the box" & "Can do" attitude
- Computer Science Degree or related
- Good written & communication skills

Character & personal qualities:

- Enjoy working in a team
- Willingness to learn and progress

Remarks: This position is suitable for someone who is new to the field but is willing to work hard and learn fast!
