

JUNIOR SAP TM CONSULTANT

Full-Time

Madrid, Community of Madrid, Spain

We are looking for several Junior SAP Transportation Management consultants to work on SAP's Transportation Management solution SAP TM® to help us extend our SAP SCM/TM Practice and support client services delivery.

This is a unique opportunity. We will and invest in you and train you extensively in our Novigo Academy. You will have the opportunity to work on newest technology in close collaboration with world leading, global Fortune 500 customer and SAP.

Novigo is a competence leader for supply chain execution consulting services. Our expert teams enable clients to uncover the benefits of SAP's state of the art Transportation Management Application Platform while transforming their supply chain execution organizations.

The word Novigo means innovation in the auxiliary language Esperanto. Innovation marks a cornerstone of our philosophy. Embedded into a holistic approach to drive business benefit realization, we deliver deeper solutions **and services for SAP customers to address today's** challenging supply chain problems.

Through our regional subsidiaries in North America, EMEA, Asia and Australia we support our customers worldwide. Novigo has delivered the most SAP TM Implementation Projects among all SAP 3rd Party Services Partners. Our value-driven Business Transformation Services approach and our track record of 100% successful SAP TM project delivery make Novigo the partner of choice for SAP Supply Chain Execution projects.

Meet our company and some of our global team members under: www.novigo.com
