C++ Software Developer (hybrid) - Madrid

Education and Training
Technical training (advanced technical college, university of applied sciences or technical university) or relevant related experience.

Mandatory skills
• Experience programming in a Windows environment.
• Experience working with std, boost, GTest and gRPC.
• Experience working with Git, Jira and Confluence.
• Experience writing automated tests.

Valuable skills
• Experience programming in a Linux environment.
• Experience with Qt Creator and legacy code.

Languages
• Spanish: Native language, otherwise business fluent
• English: Very good Business English is required (excellent communication skills). At least B2 level.
• German: Valuable for the position but not mandatory.

Salary
A very competitive salary package.

Working from home
3 days a week (flexibility available).

The Company
Our customer, **JDS (Jungheinrich Digital Solutions)**, is a German multinational that has operated all over the world for more than 65 years and is one of the leading providers of the Logistics industry. More than 18,000 employees and around 4.000 M€ revenue.

They will hire the selected candidate as an **internal and permanent employee**.

Description of the position
They are looking for a **C++ Software Developer** to join the team responsible to develop a Warehouse Management System, a leader in the Industry 4.0 intralogistics market.

Working Experience
More than **3 years** of experience developing in C++.

Key Responsibilities
• Develop new features, maintenance and bug fixing in the Warehouse Management System (WMS).
• Assistance in drawing up concepts for product development for the adjustment and expansions in the Jungheinrich WMS/WCS (Warehouse Control System).
• Detailed preparation of concepts in the form of work preparations.
• Assistance in co-creation developments as well as adjustments of the product core.
• Detailed preparation of test plans and execution of module/integration tests and system tests.

Job location
Madrid. European Union citizen; otherwise, a valid job permit is mandatory.

Expected travel
Very limited, just a 1 day trip every 3 months or so, only during the weekdays, to Austria.

*If you are interested, please apply here or send us an email to cplusplus@montarelo.com including the subject: "**C++ Software Developer**" along with your CV in English.*
